

## AIRCRAFT USERS

### Recreational Flying:

- Private clientele – cross country flights and hobby flying

### Pilot Training:

- Flight schools and aero-clubs providing training and glider towing

### Special Operations:

- Police, traffic info, coast guard, border patrol, fire patrol, utilities (gas and oil pipelines, electrical wiring), aerial photography flights

*Enter into the three dimensional world*

## WORLDWIDE FLEET

- Czech Republic, Italy, France, Poland, Netherlands, Germany, San Marino, Spain, Portugal, Finland, Lithuania
- USA, Canada, Brazil, Ecuador
- South Africa, French Gabon
- Australia
- Iran, South Korea, Taiwan

## ALL METAL AIRCRAFT

One and two-seater low-wing aircraft for a wide range of activities

- SKYLEADER 100  
(one-seater UL category MTOW 315 kg)
- SKYLEADER 200  
(UL category MTOW 472,5 kg)
- SKYLEADER 500  
(UL/LSA category MTOW up to 580 kg)
- SKYLEADER 600  
(UL/LSA category MTOW up to 600 kg)

*Real Aircraft*

## COMPONENT SUPPLIES

We are also a certified component supplier for the aeronautical industry according to EN/AS 9100

## FLIGHT CHARACTERISTICS

- High level of flight safety
- Smooth and easy handling
- Wide range of flight speed
- Very short take-off and landing distances

*for Real Pilots*

## USER BENEFITS

- High level of customization
- Full factory customer service
- ASTM certified materials and production
- Long-term durability
- Fast assembly and disassembly
- Low maintenance cost

## MANUFACTURING SKILLS

Drilling, milling, routing, forming, slotting, riveting, sealing, chromating

## CARBON-COMPOSITE AIRCRAFT

Two-seater high-wing aircraft for flight schools

- SKYLEADER GP ONE  
(UL category MTOW 472,5 kg)

*with Real Guarantees*

## RESEARCH &amp; DEVELOPMENT

- “Innovation of the Year” award for SKYLEADER 600
- „Best Cooperation Project“ for joint-development of UAV (unmanned aerial vehicle) MARABU
- World speed record achieved by a jointly developed emissionless fuel-cells powered ENFICA-FC aircraft
